

CRP# 300-20: **Bullfrog Road**

Location: Bullfrog Rd, MP 0.0– MP 2.7, Roslyn

Last Updated: January 6th, 2021

Project Number: RC2002

Length: 0.40

Basis for Project: Surface Rehabilitation

Construction: 2020

**Project Description:** Bullfrog Road was experiencing significant pavement failure creating a hazard for the traveling public. Work included milling the existing roadway and overlaying with hot mix asphalt to provide a new roadway surface for Bullfrog Rd. There were two project areas that will be resurfaced. The first was near Tumble Creek Dr and the second was near the roundabout at Suncadia Trail.

Status: **Construction completed October 20th, 2020**

Contractor: American Rock Products

**Traffic Impacts:** Flaggers and pilot cars were used to guide traffic through the construction zones.

**Funding Sources:**

HIP grant funds \$73,143

STBG grant funds \$446,000

Local funds \$146,712

Total: \$665,855
