

CRP# 279-18: Fairview Rd Widening and Coleman Creek Structures

Location: Fairview Rd, MP 5.13– MP 5.42, Ellensburg

Last Updated: September 17, 2020

Project Number: RC1581

Length: 0.29

Basis for Project: Fish Barrier Removal/Culvert Replacement

Construction: 2020

Project Description: Coleman Creek crossed a narrowed portion of Fairview Rd three times with two of the culverts failing. The project removed three culverts and replaced with a 3 sided box culvert as well as realigning the creek. This allowed for better fish habitat and passage and reduce flooding in the area caused by multiple channels flowing under the road. The road was widened throughout the project. **Advantage Dirt completed the contracted construction to gravel surface and Kittitas County Public Works crews will pave the project during 2021.**

Status: **Contracted Construction Work Completed**

Contractor: Advantage Dirt Contractors

Traffic Impacts: A full road closure took place from September 15th through November 25th, 2020. KCPW crews will pave during 2021 utilizing flaggers for traffic control.
