Horizontal Curve Safety Project

Project Number: RC2298

Length: N/A

Basis for Project: Safety improvements

Construction: 2026

Project Description:

Kittitas County Road Safety Improvement Plan 2023 (Resolution 2023-047) was created to reduce collisions and improve safety within the County Road network. Horizontal curves have been identified as high risk by data collected for the 2023 Safety Plan. The proposed project is to identify, plan, design, and implement measures for crash prevention. The project includes adding advisory speeds, LED chevrons, and additional carsonite safety posts to reduce crashes on the road system. The Plan is funded by the Highway Safety Improvement Program (HSIP) funding.

Status: Design has started with implementation expected by end of 2025.

Traffic Impacts: TBD

Funding Source:	
HSIP	\$450,000
Total:	\$450,000
