

CRP# 296-18: Big Boulder Bridge Replacement

Location: Fish Lake Rd, MP 4.0– MP 4.4, Salmon La Sac

Last Updated: January 6th, 2021

Project Number: RC1595

Length: 0.40

Basis for Project: Safety

Construction: 2020

Project Description: Fish Lake Rd is designated as a primitive road on the Kittitas County transportation network. The road is currently maintained on contract with the USFS. The bridge crossing Big Boulder Creek is currently not in the County's National Bridge Inventory System. The new structure will come in to the National Bridge Inventory System and be assigned a structural ID number. The replacement is being driven by a failed abutment which has significantly compromised load capacity. A temporary bridge was placed in Fall 2019. The new bridge was installed Summer/Fall 2020.

Status: **Construction completed September 18th, 2020**

Contractor: Morgan and Son Earthmoving

Traffic Impacts: A new one lane bridge has been installed over Big Boulder Creek.
