Board of Equalization

Parcel Number(s): 736634 Assessment Year: 2019	Property Owner: Hathaway, Glenda	
Having considered the evidence presented by the parties in this appeal, the Board hereby: Sustains overrules the determination of the assessor. Assessor's True and Fair Value BOE True and Fair Value Determination	Parcel Number(s): 736634	
Having considered the evidence presented by the parties in this appeal, the Board hereby: Sustains	Assessment Year: 2019	Petition Number: Be-190077
Assessor's True and Fair Value Land	Date(s) of Hearing: _1-7-2020	
Land		
Improvements Improvements Minerals Minerals Personal Property Total Value 61,500 Total Value 561,500 This decision is based on our finding that: The issue before the Board is the assessed value of land/improvements. A hearing was held January 7th, 2020. Those present: Chair- Jessica Hutchinson, Jennifer Hoyt, Josh Cox, Clerk Taylor Crouch and Appraiser Anthony Clayton. The Appellant was not present. Appraiser, Anthony Clayton, explained the maps provided to explain the parcels, easements, roads, and powerlines that effect the parcels. The Appraiser states all the parcels have a reduced rate for easement, access adjustments. Parcels for BE-190073 & BE-190074 are unbuildable and are valued as such. Parcels that are comparable are few and far between. 4 sales in 2017-2018 used as best comparables, the Appellant also mentioned these sales. Appellant states the comparables were too far away to compare, Appraiser state that with few sales, locations will vary. Appellant also states that comparable properties are not affected by power lines and easement access issues the same as hers, Appraiser points to comparable sales with similar issues. The parcels are in a zone that has water rights available, while the parcels are not utilizing the water rights as of now. The sales ratio model for the area is preforming at 89%, which shows that the area is not being over-assessed. The Board of Equalization has decided that looking closely at the comparable sales on Upper Peoh Point Road and Markovitch Road, the closest sales to the subject property with the most attributes in common with the subject property, the value per acre used by the Assessor's Office is justified. Although the property has been on the market for several months, the sales in the immediate area prove the potential for a successful sale. The Board voted 3-0 to uphold the Assessor's Value.
