BLACKHORSE UPDATE:

Luke stated that he and Mark Cook had a meeting with Jennifer Reiner with DR Horton concerning the new storm water plan that was submitted in December. Prior to the meeting with DR Horton, Luke reported that he had an onsite meeting with the Department of Ecology (DOE) to discuss the ongoing issues with drainage and storm water. The meeting ended with DOE explaining that Kittitas County is the regulatory agency for the project. Luke added that Director Cook had sent a letter to DR Horton denying approval of their most recent stormwater proposal. Luke stated that there are other stormwater proposal options and Luke intends to schedule a meeting with Ellensburg Water Co. to discuss those options concerning the irrigation canal and also a possible resubmittal of a new storm water plan from DR Horton, however, certain options may require reopening the SEPA process. Discussion was held.

Board Direction:

No Direction.
