CDS Operations Update

Director Carlson briefed the Board of County Commissioners on the current Permit Technician staff. Before the pandemic, CDS staffed three permit technicians with two other employees who had permit technician experience that could provide additional support when needed. After July, the office will be down to two full time permit technicians due to a military tour and various other reasons. Director Carlson is currently working on a plan to develop more coverage for staff.

Annual Docket

Director Carlson asked for direction from the Board of County Commissioners regarding the 2020 Annual docket. Due to the current pandemic, hosting public hearings is against the Governor's orders. Hosting public meetings virtually has some concerns, one of which include some participants may have limited technology capabilities. The board gave staff direction to move forward with annual docket limiting to legislative matters and asked Director Carlson to research developmental site regulations with legal counsel. Director Carlson will follow-up with findings at the upcoming study session.
