Jamey Ayling, Planning Manager  
411 N. Ruby Street, Suite 2  
CC: Kittitas County Board of Commissioners

Thank you for the information regarding the proposed meat processing Plant by 3BR Custom Cuts. As new owners of the property boarding the plant, We are adamantly opposed to this type of commercial business in this rural residential neighborhood. The 3BR Custom Cuts will destroy our way of life as well as damage to the surrounding homes and greatly decrease the value of many homes.

Giving 3BR a 6 months window to hire multiple businesses to respond and the public only 14 days is very unfair. We could go through the 10 comments from McCullough Hill and punch holes in it but since we only have 14 days and during the holiday to respond. We can only say we are venomously oppose this facility in our area.

The 3BR paper has so many different scenarios of the use of a residential well it is almost impossible to figure out just how much usage they will use. Our residential well is directly in line with the well they will be using. Just how much water will they use, and who is going to check on them?

There are two other businesses in this vicinity that have no threat to the environment or rural setting. We agree that Kittitas County may need a meat processing plant but not in this Residential Rural neighborhood.

Thank you for considering these factors in your decision, we look forward to your response.
