Kittitas County CDS

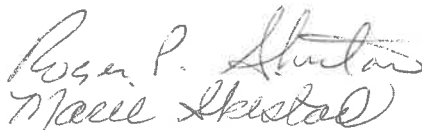

Kittitas County Community Development Services
441 N. Ruby St. Suite 2
Ellensburg, WA 98926

Ref: Project Number: 3 Boots Ranch (CU-23-00001)

Request the following questions be addressed in the SEPA Process for this project.

1. NOISE how much noise will the project generate from trucks and other vehicles coming and going from the plant, and how can this impact be mitigated?
2. SMELL the plant is located very close to several residences. How will the smell be mitigated from the holding pens? How long will cattle typically be held in these pens before slaughter and how will the waste be handled? Will cattle be fed in the holding pens?
3. SEWAGE will blood and other animal fluids be treated on site or removed for off-site treatment? Any on site treatment has the potential for partially treated sewage to enter into the subsurface ground water and flow to the adjacent properties where it can surface and create a problem.
4. PROPERTY VALUES how will potential impacts to adjacent property values generated by placing an industrial facility in a residential area be addressed?
5. What is the design capacity of the plant and how many employees are estimated to work there?

Thanks for your consideration.

Roger and Marie Skistad
