Ms. Stevie:

The Department of Health (DOH) Office of Drinking Water (ODW) has two comments for this applicant:

- The State of Washington Department of Ecology would consider any groundwater extractions for at least the purposes of drinking water usage for the resulting lots to be a single “project” and so any or all extractions – one well for the two lots or individual wells – would be considered under one withdrawal limit.
- Any drinking water usage, whether one shared well or individual wells, would be considered “private” and subject only to Kittitas County Health administration.

Thanks,

Russell E. Mau, PhD, PE

Regional Engineer

Office of Drinking Water

RE: SP-21-00002 Lonny

Thank you for the opportunity to comment on the above-mentioned project regarding water and septic requirements to comply with Kittitas County Public Health Department's Water Resources and Environmental Health requirements.

	Findings
--	-----------------

On Site Sewage

Finding 1

Each lot has an existing on-site sewage system.

Water

Finding 1

The proposed short plat indicates the applicant will use a shared well to serve both lots.

A	Additional Information Required (Prior to Preliminary Plat Approval)
----------	---

No additional information required

B	Final Plat Review & Recording (Prior to Final Plat Approval)
----------	---

The applicant must provide a signed, notarized and filed shared water user's agreement between the two proposed lots of the plat.

C	Final Plat Notes
---	------------------

No additional information required

KITTITAS COUNTY

DEPARTMENT OF PUBLIC WORKS

MEMORANDUM

TO: Community Development Services

FROM: Public Works Plan Review Team

DATE: January 3, 2022

SUBJECT: Lonny Short Plat SP-21-00002

The following shall be conditions of preliminary approval:

1. Timing of Improvements: This application is subject to the latest revision of the Kittitas County Road Standards, dated 12/15/15. The following conditions apply and must be completed prior to final approval of this project. A performance guarantee may be used, in lieu of the required improvements, per the conditions outlined KCC 12.01.150.
2. Private Road Certification: Private roads serving any of the lots within this development shall be inspected and certified by a licensed professional engineer for conformance with current Kittitas County Road Standards, 12/15/15 edition. Kittitas County Public Works shall require this road certification to be completed prior to final approval of the project. If a performance guarantee is used in lieu of the required improvements, the private road shall be constructed and certified to comply with the minimum requirements of the International Fire Code prior to issuance of a building permit.
3. Private Road Improvements: Iron Mountain Road shall be improved to meet or exceed the conditions of a High-Density Private Road that serves 15-40 tax parcels. Iron Mountain Road shall be improved to this road standard from Pays Rd. to the point that the road serves the existing driveway to proposed Lot B. See Table 4-4A, current Kittitas County Road Standards, 12/15/15 edition.
 - a. Access easements shall be a minimum of 60' wide. The roadway shall have a minimum width of 22', with 1' shoulders, for a total width of 24'.
 - b. Minimum centerline radius shall be 60'.
 - c. Surface requirement BST/ACP.
 - d. Maximum grade is 10%.
 - e. Stopping site distance, reference AASHTO.
 - f. Maintenance of driveway approaches shall be the responsibility of the owner whose property they serve. The County will not maintain accesses.

- g. Any further subdivision or lots to be served by proposed access may result in further access requirements.
 - h. All roads located within this development or roads that provide access to this development shall be constructed to current county road standards unless any other maintenance agreements, forest service road easements or state easements require higher road standards. The higher of the road standards shall apply.
 - i. All easements shall provide for AASHTO radius at the intersection with a county road.
4. Driveways: A driveway shall serve no more than four tax parcels. See Kittitas County Road Standards, 12/15/15 edition.
- a. New access easements shall be a minimum of 30' wide. The roadway width shall have a minimum width of 12' if the length of the driveway is less than 150', or 16' if the length of the driveway is more than 150'.
 - b. Maximum grade shall be 10-15% dependent on surface type.
 - c. Crushed surface depth per WSDOT standards.
 - d. Any further subdivision or lots to be served by proposed access may result in further access requirements.
5. Plat Notes: Plat notes shall reflect the following:
- a. Kittitas County will not accept private roads for maintenance as public streets or roads until such streets or roads are brought into conformance with current County Road Standards and formally adopted by the Kittitas County Board of County Commissioners.
 - b. Maintenance of the access is the responsibility of the property owners who benefit from its use.
 - c. An approved access permit will be required from the Department of Public Works prior to creating any new driveway access or performing work within the county road right-of-way.
 - d. Any further subdivision or lots to be served by proposed access may result in further access requirements. See Kittitas County Road Standards.
 - e. A public utility easement 10 feet in width is reserved along all lot lines. The 10 foot easement shall abut the exterior plat boundary and shall be divided 5 feet on each side of interior lot lines. Said easement shall also be used for irrigation.
6. Plat Approvals: All plats must show the acceptance signature of the County Engineer. The acceptance block shall be as follows (per KCC 16.24.170):

EXAMINED AND APPROVED
This ____ day of ____, A.D., 20__.

Kittitas County Engineer

7. Private Road Maintenance Agreement: The applicant shall meet all applicable conditions of any pre-established or required Private Road Maintenance Agreements.
8. Lot Closure: It is the responsibility of the Professional Licensed Surveyor (PLS) to ensure the lot closures are correct and accurate.
9. Access Permit: An approved access permit shall be required from the Department of Public Works prior to creating any new driveway access or performing work within the county road right of way.
10. Addressing: Contact the Kittitas County Rural Addressing Coordinator at (509) 962-7523 to obtain addresses prior to obtaining a building permit. A parcel cannot receive a building permit or utilities until such parcel is identified with a 911 address.
11. Mailbox Placement: Mailboxes must be approved by U.S. Postal Service. Mailbox locations are site specific. Contact your local Post Office for location and design standards before beginning construction.
12. Water Line: Water line to be placed within an easement of record.
13. Grading: Any lot development grading activity in excess of 100 cubic yards (cut or fill) requires a grading permit. Site grading in excess of 500 cubic yards requires and engineered designed grading plan and state environmental policy act review.
14. Stormwater: Site development creating an excess of 5,000 square feet of impervious will trigger stormwater design requirements (Stormwater Management Manual for Eastern Washington, current edition).

SURVEY:

1. This Prelim Short Plat does not meet topo requirements as specified in WAC:332-130-145.
2. Overhead power and underground water lines are not shown within the legend.
3. A number of dimensions are obscured by crossing linework.
4. The position of easement 524454 in Parcel B, does not match survey 546065. This discrepancy should be noted.
5. Basis of bearing is not noted.
6. The Northernmost line of West boundary of Lot B does not match lot closures. (99.91 vs 104.91)

WATER MITIGATION/METERING:

Beneficial use of water has been established on both of the proposed lots. Water mitigation is not required for final plat and metering will not be applicable.
