Good afternoon Kelly,

DNR Southeast Region Forest Practices appreciates the opportunity to provide comments to CDS on projects and proposals such as this Short Plat (Morazz Short Plat SP-22-0001). Based on a review of the maps, wetland delineation report, and other supporting documentation available through the links to CDS, there does not appear to be any merchantable stands of timber (just a few hawthorn or black cottonwood), and the purported Type F stream turned out to be an irrigation canal. So with these ground conditions in mind, I do not see any need for the current or future landowners of these lots to obtain an approved Forest Practices Application (FPA) in order to develop, as this area does not appear to be forestland.

Sincere thanks,

Shane Early
