Mr. Cromie:

The Department of Health (DOH) Office of Drinking Water (ODW) has the following comments or questions:

- The applicant indicates both the property location is within the City of Ellensburg's Urban Growth Area and "All proposed parcels will be on their own community water system". DOH ODW wonders why the applicant didn't consider connecting to the City's water system?
- Also, per the above bullet item, for four (4) parcels (with a single home per parcel), a separate public water system most likely would be a Group B water system due to the number of connections, four (4). For a Group B water system, Kittitas County Health has exclusive administrative authority and responsibility.
- DOH ODW does concur that the use of groundwater should be considered as a collective because it is a "project" – if warranted, please contact the State of Washington Department of Ecology for more guidance.

If you have any questions or concerns, please contact DOH.

Thanks,
