M Pedersen,

WSDOT Aviation Division reviewed this application on 03/22/23. The construction of communication towers generally requires notification of the FAA via [forms 7460-1 and 7460-2](#). In this case, the antenna will be collocated with other communication antennae. The FAA allows for notification exceptions for collocated towers in limited circumstances (see below).

You must file with the FAA at least 45 days prior to construction if:

- your structure will emit frequencies, and does not meet the conditions of the [FAA Co-location Policy](#)

For more information, please access [14 CFR Part 77.9](#).

Our assessment is that there are no land use issues regarding this application and, unless determined exempt otherwise, notification of the FAA is required.

Please do not hesitate to contact me if you have any questions.

Cheers,
