---

This application has not received final approval yet, the conditional approval requires consultation with the Washington Department of Fish and Wildlife to determine if the crossing over Taneum Creek at the proposed location will be allowed. To the best of my knowledge, WDFW is still considering the proposal.

Jeff,

Encompass Engineering recorded a survey yesterday for Taneum Creek Ranch. I noticed that you have their application for the segregation online but I didn't see an approval scanned in yet. Do you know if this one has had a final approval yet? The parcel numbers are 336333 and 956644. I believe the permit number is SG-10-00018 if that helps.

Thank you,

**Shandra Garrison**
