Hi Sheryl & Dusty,

I have not forgotten about all this. I've been out of town for work quite a bit lately and haven't had much spare time. I apologize on the delay. Dusty - can you send me a link the the exemption form you would like us to fill out. I look on Kittitas County's website but wasn't clear which form exactly I needed.

Thanks,
Nicole

You could physically measure it. The only tools we have are either google mapping or a survey. You could have it surveyed, but that's \$\$\$\$. I will be in the office tomorrow if you want to give me a call.

Sheryl,

Okay I will try to get that done this week. Should I cc you when I send it to you if it's sent electronically or email you a copy if I drop it off to him? Is it a bad thing to be within the OHWM? Is that how these types of things are usually measured? Aerial photos and/or Google earth? Are those accurate enough or does it need to be physically measured or surveyed? Sorry for all the questions! Should I give you a call when I get a chance?

Thank you!!
Nicole

I just re-measured with google earth and the southern portion of the trail does come within 200' of the man made jetty to the south. Even moving to the project boundary doesn't get us out of the 200' area.

I would recommend completing the form which Dusty requested for the shoreline exemption.

Sheryl

Hi Sheryl,

Do I need to fill out the form Dusty mentions below? I thought that the proposed trail was outside of the OHWM 200' area? I'm not sure how accurate of measurement they are getting from the aerial photo? Should we remeasure?

Thanks,
Nicole

Hi Dusty,

Sorry for the delayed response on this. I've been moving so life has been a little hectic. I believe we can move the trail up to be outside the 200' OHWM. Do you have time for me to come by and talk with you in person this week? Maybe today or tomorrow?

Thanks,
Nicole

Nicole,

Attached is a link.

Thanks,

[Shoreline Exemption Application](#)

Dusty Pilkington

Greetings. After examining the given materials, staff here at CDS have determined that one of two things will be required. According to calculations and measurements based off of the aerial photo drawing given, the southern edge of the proposed trail comes within 179.98 feet of the OHWM. We will need either a more detailed site plan showing a well delineated OHWM and demonstrating that the trail does not in fact cross the 200' buffer, or we will need a shoreline exemption to be applied for, which will also include a detailed site plan. Feel free to contact me with any further questions.

If you decide to go the route for a shoreline exemption, the appropriate form can be found at the Kittitas County website on the Community Development Services page, under "Forms".

Thank you,

Dusty Pilkington

Nicole,

Is there any way you could send me a site plan showing where the trail is going to be? A scale drawing will be sufficient. I just need to be sure of where the planned work will be on the parcels listed in the JARPA so that I can ascertain whether an exemption is needed/warranted. Thanks!

Hi Dusty,

Here is the JARPA we submitted the ACOE this year. Let me know if you need anything else.

Thanks,
Nicole Ogan
