Subject: Palomino Fields Div. 1 Mylar - correct scrivernor errors

Good afternoon.

The Palomino Fields Div. 1 8 lot final plat was approved in August 2017. After recording it was discovered that the critical areas were not shown on the mylar as required by preliminary plat conditions and that the access road was listed as public which is also in error. I am sending this division out for your review (Public Works) to ensure everything is correct. Nothing else is changing through this new mylar. Please provide any changes/comments back to me by **end of day April 26th** so that I can have the applicant provide us the actual mylar for signature. I will route a paper copy of the new plat map to Public Works.

Holly, I am including you so you and Tristen are aware of the situation when the mylar arrives in your office for signature since there is nothing you need to review with this request.

Please let me know if you have any questions.
