

Needham Parcel Combination Details

This project involves the combination of parcels # 097334 + 297334, in preparation for construction of a log home.

See attached drawing for location of existing septic tank and approximate location of existing drainfield. The property is served with electricity through PSE, and water through KCWD #7, both existing on the property at this time.

The property has an existing half circular driveway, which will be retained as is.

The property has 2 existing sheds, both of which will be demolished upon construction of 1 new shed, date and location to be determined.

The proposed log home will be 24' x 32', with approximately 672 sq ft of additional ~~deck~~ covered deck space.

The proposed location of the home is shown on the attached drawing.

The existing driveway starts near the west end of both properties, and extends into the properties approximately 28'.

Also included with attachments are the most comprehensive property legal descriptions available from the county auditors office
