Rachael,

After doing some more digging I discovered that the water source that is supplying the home on parcel 949899 is actually a Group B water system called Tillman Creek Water System #5, with an ID# AC648J. The lot combination is good to go.

To answer your question, no, I don't need any additional information. The applicants might find this information useful and if they would like any additional information on their water system they can contact me and I could send them the entire file electronically!

Have a good day.

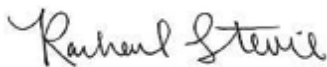

Holly Erdman

Good morning Holly,

Do you need a site plan showing the location of the well, regardless of whether or not it is located on the parcels involved in the combination?

Thank you,

The well is not on property. I believe that is mentioned in the narrative. Do I need to get a site plan from our neighbors, Donna and Joseph Gunderson?

Rachael,

Do you have site plan that shows the well location for this project?

Holly
