NO. 2014- 105

**WHEREAS**, according to Kittitas County Code Title 15A, relating to Hearings, an open record hearing was held by the Kittitas County Hearing Examiner on May 8, 2014 for the purpose of considering a shoreline setback variance known as 3160 VIA Kachess Shoreline Variance SV-14-00001 and described as follows:

*A request for a variance to allow the remodel and addition (including deck) of an existing residential structure to be no closer than approximately 58 feet from the Ordinary High Water Mark (OHWM) of Lake Kachess. Parcel number 21-13-17051-0001. The property is located on Lake Kachess in an established residential/recreation area. The Plat of Kachess was platted in the 1970s and many of the existing lots within the shoreline of Lake Kachess cannot meet the current shoreline and zoning setbacks. The parcel in question has approximately the following dimensions: a north property line of approximately 103.22 feet, east property line of approximately 106.99 feet, south property line of approximately 100.00 feet, and a west property line of approximately 99.62 feet. The total parcel is approximately 0.22 acres in size. The development of this lot and other lots in this plat are restricted by lot size, zoning, shoreline, and environmental regulations.*

7. The Hearing Examiner has reviewed the Shoreline Master Program and has concluded that the applicant demonstrated the following criteria has been met pursuant to WAC 173-27-170 and Section 40 of the Kittitas County Shoreline Master Program:
  - a. The strict application of this requirement precludes or interferes with reasonable use of the subject property, and;
  - b. That this hardship is specifically related to the property, resulting from unique conditions including lot shape, size, and other natural features; and
  - c. That the residential nature of the proposal is compatible with other authorized uses within the area and with uses planned for the area under the comprehensive plan and shoreline master program and will not cause adverse impacts to the shorelines environment; and
  - d. The variance will not constitute a grant of special privilege not enjoyed by the other properties in the area; and,

- 16. Appearing and testifying on behalf of the applicant was Richard Landen. Mr. Landen testified that he is the applicant and the owner of the subject property. Mr. Landen testified that his wife is severally disabled, This disability restricts her mobility. This property presented access issues requiring them to construct a new addition on to this property.
- 17. It is impossible for them to construct this addition without the need for this variance because of the minimal lot size. The hardship is also related to his wife’s disability and a need to modify the access to this structure to allow her to enjoy the property.
- 18. Mr. Landen testified that because his wife is in a wheelchair and is unable to walk, that the size of structure had to be increased due to the nature of handicap accessible buildings needing to be larger to accommodate wheelchairs.
- 19. Mr. Landen further testified that he agreed that they would not do any construction within the Riparian Area. He testified that they would not do any work on Bureau of Reclamation land between his lot line and the ordinary high water mark. He testified that a bridge for the driveway was needed in order for his wife to have access to the property.
