Hello,

I talked to Doc and we have come to the conclusion that we will need a site plan that shows all septic's and drain fields prior to notice of application. This doesn't need to be on the survey currently just a site plan.

Dear Kaycee:

I received your message and I will talk to the surveyor to see if he knows the locations.

If they are not on when you review, will the Health Department just make it a condition that they have to be shown or will they want it before they review? Let me know.

Happy Monday,

Ginger :]
