Subject: RE: MacIsaac Short Plat

I have been putting out fires over here based on their BTUs and size; a decision for the MacIsaac short plat is now the biggest hottest fire on my desk. Can somebody please check and see if PW planning comments were generated for this short plat; I have checked all of the usual places over here and have come up empty. I can always just make a generic "... must comply with all elements of title 12 of the Kittitas County code..." condition too...?

Back when Christina commented on all things Public Works we would just send the Notice of Application to her (and Candie in case she was out of the office for an extended period). She would provide us with a digital and a hard copy for the file. This one was sent out in that time frame when we were trying to figure out who wants to comment on what and via what channel; it went to Candie and Kelly on October 21. My search has only turned up a comment from Justin with respect to the survey. There is a second email attached to an Email from Lucas on the 23rd of November which will not open for me. Would you be so kind as to:

1. Send/re-send comments RE: SP-16-00003 MacIsaac with respect to the subdivision itself? and,
2. Send all future comments with an application number and name in the Subject Line (or reply directly to the original email)? and,
3. Allow us to send the Notice of Application to the publicworks@co.kittitas.wa.us address, have it distributed to the mailboxes (Lucas, Justin, Karen, Kelly, ????, ...) based on your needs/requirements/elements/issues; then #2 above?
4. Contemplate the merits of providing a hard copy to the in box of the Planner of record for insertion to the file?

With my eternal gratitude...

Jeffrey A. Watson

Not sure who these comments should go to as I have not seen a request for comments on this yet?
