Dear Ms. Hathaway,

I try not to get involved in local politics but this is an issue that is near and dear to my heart and it's outcome I feel needs to be addressed now rather than down the road. I am inferring to all of the recent comments regarding marijuana farms in the area and it seems that every time that I pick up the Daily Record more of these are finding there way into our valley. First of all it was a huge mistake for even entertaining the idea of permitting these WEED farms here and second, the so called owners probably are not even from Ellensburg and do not live anywhere close to where these are being constructed. The motivation for these operations is plain and simple, greed first and foremost. Being a local, I never in my wildest dreams could have imagined that the Ellensburg I grew up in would rely on Marijuana as a cash crop and can see the beginnings of our county going the direction of pervasive crime, addiction and depravation that always comes with this type of enterprise, what's next, poppy farms, I hear there is a need for heroin. In summary I request that anymore of these so called FARMS not be built or permitted as they will do irreparable harm to this county and community all for the benefit of a few who have no real connection to Ellensburg and it's surrounding areas other than their own personal greed.

Respectfully,
Daniel Wagner
