Attachments: SEPA for Murphy Project.docx revised 9-13-2019.docx; Addendum to the Shoreline Permitting revised 9-13-2019.docx

Hi Kathy,
I was at CDS yesterday, hopefully you remember.

Addendum to Shoreline Permitting has been revised.

Attached is a revised SEPA for my Shoreline exemption. The only change is question 11, you may simply substitute this page, the following language is the only change:

- Harvest approximately 65 trees in those areas where the driveway will be cleared, and in future development areas, approximately 2 acres, approximately 20 thousand board feet
- Additional forest harvest consisting of thinning ups to 3 acres, approximately 25 thousand board feet

The rest of the document remains unchanged. After I left yesterday, I was informed there may be a way to fast-track the SEPA review, since an additional SEPA review was conducted in 2011 that included nearly all that is contained in the SEPA dropped off yesterday. I need to have a discussion with Ms. Lindsey Ozbolt on Monday upon her return. For now however please enter this in to your system.

Happy to discuss on the phone if needed.

Thank you,
Brian
