**Date:** Tuesday, September 1, 2020 8:06:34 AM

---

Kelly

I am a homeowner within 1 mile of the proposed site and am writing to voice my objection to its approval.

I am very concerned about the water quality of my well and to the aquifer that feeds the city of Kittitas. I also am concerned about air quality.

I drove up to what I believe is the proposed site. There was/is no land use action signs and I find that to be odd. I think something that can destroy the value of my property and my quality of life should not be seemily slid in without letting people know.

I strongly urge you to deny this application until you can have a full discussion with the impacted property owners and/or consider another location.
