Attachments: [SEPA Application SE-20-00003.pdf](#)

Good morning Kelly-

Here is our formal letter requesting the extension to adequately address the comments from our SEPA review. I did add a request at the end. My intentions are definitely not to add more to your plate, as I know you have been bombarded regarding our project. We would really like to work with the County and address concerns on the project.

Thank you
Rikki

Re: SEPA Application SE-20-00003

Dear Ms. Bacon,

Thank you for the opportunity to review and respond to the public comments that were submitted to the County in response to Brown & Jackson, Inc.'s proposed storage ponds. Given the scope and magnitude of these comments, we respectfully request a 14-day extension to the response deadline so that we can adequately address the various issues raised.

If you have any questions or concerns with this request, please feel free to contact me. Otherwise, we will provide you with our responses no later than October 8, 2020.

Additionally, pursuant to KCC 15.05.120(2), we would like to request early notice of whether the County is likely to issue a determination of significance for the proposed storage ponds, and if so, the grounds for that determination. We do not believe that this project is likely to have a probable significant adverse environmental impact, and we would like to work with the County proactively to address any concerns that may arise as you review the environmental checklist and the public comments that have been submitted.

Sincerely,

Rikki Schmitt
