Re: SEPA Application SE-20-00003

Dear Ms. Bacon,

Thank you for the opportunity to review and respond to the public comments that were submitted to the County in response to Brown & Jackson, Inc.'s proposed storage ponds. As longtime members of this community, Brown & Jackson, Inc. takes the concerns expressed by the public very seriously. As a result, we have decided to proceed with several additional studies in order to further address several of the questions raised by commenters. Specifically, we have retained appropriately qualified environmental professionals to survey the project areas regarding potential cultural resources, wetlands, and critical areas. It is estimated that this work will require six to nine weeks to complete.

We respectfully request a nine-week extension to the response deadline so that we can complete these studies and provide the resulting reports with our responses to the public comments. If you have any questions or concerns with this request, please feel free to contact me. Otherwise, we will provide you with our responses no later than December 10, 2020.

Sincerely,

Rikki Schmitt
