Subject: RE: Notice of Application SE-20-00009 Kittitas County Ryegrass Facility
Date: Tuesday, December 29, 2020 11:19:57 AM

Good morning Kelly,

Kittitas County Public Health will refer to KCC 13.04.200(5) regarding site and location management. Site characteristics and location indicate that there is no active surface water and the soils are a cobbly loam over Columbia river basalts with arid climate conditions. The plan also indicates that a 100 foot buffer will be place around all ephemeral stream channels and wells. The plan shows that the site location is approximately 18 miles east of Ellensburg to the south of State Route 10 placing the site down range of prevailing winds. Site specific plan however is out of date and should reflect current agency staff and contact information.
