Kelly,

Didn't mean to be argumentative, but your review period does not end until consultation is complete. We have let the last dozen of your consultations slide by. Consultation is the County's responsibility. We should not have to look beyond the SEPA document to have all the necessary records. For example, the Project Description and Location should be clear in the SEPA document, there should be no need to "see the Project Narrative". We can't consult until we have the proper documents. If the report is in WISAARD then we need the DAHP Project Number and be listed as a reviewer.

It is best to have these issues addressed up front. EO 05-05 had similar requirements and now EO 21-02 is in effect. Some stipulations from EO 21-02:

"2. Agency should initiate consultation with DAHP and affected tribes early in the project planning process and must complete it prior to the expenditure of any state funds for construction, demolition or acquisition."

"4. Consultation under this Executive Order may be delegated to non-state recipients of state funds but the state agency shall retain the responsibility to ensure an adequate consultation process and will be responsible for holding all records related to the tribal consultation process. The agency will provide the records to DAHP to demonstrate completion of the tribal consultation process."

"9. In the event of a disagreement regarding the required consultations, or regarding the need or scope for archeological, ethnographic or cultural studies, the funding state agency, DAHP and/or GOIA shall meet with the Office of Financial Management policy and budget staff to identify an appropriate resolution."

"The Office of Financial Management is directed to include in its budget and allotment instructions a requirement that agencies consult with DAHP and affected tribes, as appropriate, as part of the budget request and allotment process."

"To the extent that they have not already received training, all appropriate state agency employees managing state-funded construction or acquisition projects, including grant or pass-through funding that culminates in construction or land acquisitions, will attend government-to-government training and cultural resource training provided by GOIA and DAHP."

We understood your Code had a 15 day comment period. Please, never assume we do not wish to provide comment. If you do not receive comment we understand your need to proceed with the subject Application.

Subject: RE: SE-21-00007 Spring Creek Restoration - Notice of Application

Good afternoon Guy,

Kittitas County Code 15A.03.060 Notice of application speaks directly to our time frame for comment periods. SEPA has a 15 day comment period. That being said, if additional time is needed to review documentation, it is well within your right to ask for additional time. I have spoken with Arden Thomas, Water Resources Manager for Kittitas County and the agent for the Spring Creek Restoration. The Cultural Resources Report is available on WIZARD. She would be happy to provide you with the Consultation Letter from DOE if you would like.

According to your email below, it appears your agency may need additional time to complete a full review. Do you happen to know how much time you may need?

Thank you,

Kelly Bacon

Dear Kelly Bacon:

Aren Orsen is our lead for consultations in Kittitas County. If you have not sent it yet, we require the cultural resource report referenced in the SEPA checklist under Item B. 13. If we already received the report we will make every effort to respond by the May 5, 2021 deadline. If we have not yet received the report, the review clock has not started. Your communication states, "The comment period will end May 5, 2021 at 5pm. CDS will assume your agency does not wish to provide comment if not received by this date." That would be an incorrect assumption. We recommend you acquaint yourself with EO 21-02 in reference to cultural resource consultation.
