Hello Rachael. I'm writing regarding the so-called thinning of some magnificent Douglas fir and other tree species. Why? For development purposes? Do these (new) people know this is a migratory corridor for elk? I've only lived here for 22 years but the flora and fauna have been here forever and we humans continue to encroach on their habitat.

My husband and I are against this proposed action.

Please keep us apprised of this situation and feel free to call or write if you have any questions.

Thank you.

Sincerely,
Debra and Steve Busick
