Good morning,

DNR appreciates the opportunity to provide SEPA comments relating to this proposed project which involves the conversion of a portion of the landowners property to non-forestry, in order to create a one (1) acre clearing for the construction of a single family residence. I've previously been in communication with Cary White about this project, and thus it appears the SEPA checklist adequately captures sufficient information in order to utilize the anticipated DNS from Kittitas County in order to process a near future Forest Practices Application (FPA) for the related timber harvest.

Best regards,

Shane Early

Forest Regulations Coordinator
