Hello Jeremiah Cromie

This consult is in reference to Setback Variance – *VA-23-00004 Kosar*. This undertaking is located within the CCT Traditional Territories.

The proposed project lies within the traditional territory of the Wenatchi Tribe, 1 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

There are several known cultural resources of historic and pre-contact significance nearby, and this particular parcel is considered Very High Risk for an inadvertent discovery according to the DAHP predictive model.

CCT H/A request that prior to implementation the area be surveyed for cultural resources, and given the intention for ground disturbing activities any cultural survey should include both pedestrian survey and subsurface testing (within the footprint of the proposed ground disturbance). During implementation. The CCT H/A further recommends that there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

Sincerely,

Connor Armi | Archaeologist Senior MA, RPA
