Zach,

This application is a concern as the existing septic system (attached) is old (1977) and only for a 1 bedroom house. Replacing this system or the potential of adding more bedrooms to the cabin with current codes, found in WAC 246-272, could present a problem as the lot is small and the proposed footprint of the house could take up space that may be required for the future septic system and/or the replacement septic system. A site evaluation should be done to evaluate if there is adequate space on the lot prior to final approval of this application.

Thank you for your time and consideration.

Holly Erdman
