

PM_{2.5} is Particulate Matter Found in Air Pollution

PM_{2.5} is less than
2.5 microns wide.

That's **20 times**
smaller than the
width of a
human hair!

This is a human hair.

This is PM 10 This is PM2.5

PM_{2.5} particles are inhaled deep into the lungs,
causing damage to lungs and other health problems.

***Wood smoke is a major source for PM_{2.5} in Kittitas
County***
