## 7. Timber Land Classification

Number of acres: 13.53

**Definition:** "Timber land" means any parcel of land that is five or more acres or multiple parcels of land that are contiguous and total five or more acres which is or are devoted primarily to the growth and harvest of forest crops for commercial purposes. "Timber land" means land only and does not include a residential home site. The term includes land used for incidental uses that are compatible with the growing and harvesting of timber but no more than ten percent of the land may be used for such incidental uses. It also includes the land on which appurtenances necessary for the production, preparation, or sale of the timber products exist in conjunction with land producing these products.

A timber management plan shall be filed with the county legislative authority either (a) when an application for classification as timber land pursuant to this chapter is submitted; (b) when a sale or transfer of timber land occurs and a notice of classification continuance is signed; or (c) within sixty days of the date the application for reclassification under this chapter is received. The application for reclassification will be accepted but not processed until the timber management plan is received. If the timber management plan is not received within sixty days of the date the application for reclassification is received, the application for reclassification shall be denied. If circumstances require it, the county assessor may allow in writing an extension of time for submitting a timber management plan when an application for classification or reclassification or notice of continuance is filed. When the assessor approves an extension of time for filing the timber management plan, the county legislative authority may delay processing an application until the timber management plan is received. If the timber management plan is not received by the date set by the assessor, the application or the notice of continuance shall be denied.

## 8. Submit a copy of your timber management plan with this application.

A timber management plan will include the following elements:

- a) a legal description of, or assessor's parcel numbers for, all land the applicant desires to be classified or reclassified as timber land,
- b) date or dates of acquisition of the land,
- c) a brief description of timber, or if harvested, the owners plan for restocking,
- d) whether there is a forest management plan for the land,
- e) if so, the nature and extent of implementation of the plan,
- f) if land is used for grazing,
- g) whether the land has been subdivided or a plat filed with respect to the land,
- h) whether land and applicant are in compliance with restocking, forest management, fire protection, insect and disease control, etc.,
- i) whether the land is subject to forest fire protection assessments pursuant to RCW 76.04.610,
- j) whether the land is subject to a lease, option, or other right that permits it to be used for a purpose other than growing and harvesting timber,
- k) a summary of past experience and activity of the applicant in growing and harvesting timber,
- l) a summary of current and continuing activity of the applicant in growing and harvesting timber,
- m) a statement that the applicant is aware of the potential tax liability involved when the land ceases to be classified as timber land

9. Describe the present improvements on this property (buildings, etc.). 1 hay barn, 2 residences, 1 horse barn, 6 abandoned buildings

10. Is this land subject to a lease or agreement which permits any other use than its present use?

Yes  No

If yes, attach a copy of the lease agreement.

**NOTICE: The assessor may require owners to submit pertinent data regarding the use of classified land.**

**Open Space Land Means:**

- (a) Any land area so designated by a comprehensive land use plan adopted by a city or county authority, or
- (b) Any land area, in which the preservation in its present use would:
  - (i) Conserve and enhance natural or scenic resources,
  - (ii) Protect streams or water supply,
  - (iii) Promote conservation of soils, wetlands, beaches or tidal marshes,
  - (iv) Enhance the value to the public of abutting or neighboring parks, forests, wildlife preserves, nature reservations or sanctuaries or other open space,
  - (v) Enhance recreation opportunities,
  - (vi) Preserve historic sites,
  - (vii) Preserve visual quality along highway, road, and street corridor or scenic vistas, or
  - (viii) Retain in its natural state tracts of land not less than one acre situated in an urban area and open to public use on such conditions as may be reasonably required by the granting authority.
- (c) Or, any land meeting the definition of "farm and agricultural conservation land".

**Statement of Additional Tax, Interest, and Penalty Due Upon Removal of Classification**

- 1. Upon removal of classification, an additional tax shall be imposed which shall be due and payable to the county treasurer 30 days after removal or upon sale or transfer, unless the new owner has signed the Notice of Continuance. The additional tax shall be the sum of the following:
  - (a) The difference between the property tax paid as "Open Space Land" or "Timber Land" and the amount of property tax otherwise due and payable for the last seven years had the land not been so classified; plus
  - (b) Interest upon the amounts of the difference (a), paid at the same statutory rate charged on delinquent property taxes.
  - (c) A penalty of 20% shall be applied to the additional tax and interest if the classified land is applied to some other use except through compliance with the property owner's request for withdrawal process, or except as a result of those conditions listed in (2) below.
- 2. The additional tax, interest, and penalty specified in (1) above shall not be imposed if removal resulted solely from:
  - (a) Transfer to a governmental entity in exchange for other land located within the State of Washington.
  - (b) A taking through the exercise of the power of eminent domain, or sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power.

- (c) A natural disaster such as a flood, windstorm, earthquake, or other such calamity rather than by virtue of the act of the landowner changing the use of such property.
- (d) Official action by an agency of the State of Washington or by the county or city where the land is located disallows the present use of such land.
- (e) Transfer of land to a church when such land would qualify for property tax exemption pursuant to RCW 84.36.020.
- (f) Acquisition of property interests by State agencies or agencies or organizations qualified under RCW 84.34.210 and 64.04.130 (See RCW 84.34.108(6)(f)).
- (g) Removal of land classified as farm & agricultural land under RCW 84.34.020(2)(e) (farm homesite).
- (h) Removal of land from classification after enactment of a statutory exemption that qualifies the land for exemption and receipt of notice from the owner to remove the land from classification.
- (i) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120.
- (j) The creation, sale, or transfer of a conservation easement of private forest lands within unconfined channel migration zones or containing critical habitat for threatened or endangered species under RCW 76.09.040.
- (k) The sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as designated forest land under chapter 84.33 RCW, or classified under this chapter 84.34 RCW continuously since 1993. The date of death shown on the death certificate is the date used.
- (l) The discovery that the land was classified in error through no fault of the owner.

**Affirmation**

As owner(s) of the land described in this application, I hereby indicate by my signature that I am aware of the potential tax liability involved when the land ceases to be classified under provisions of Chapter 84.34 RCW. I also declare under the penalties for false swearing that this application and any accompanying documents have been examined by me and to the best of my knowledge it is a true, correct, and complete statement.

The agreement to tax according to use of the property is not a contract and can be annulled or canceled at any time by the Legislature (RCW 84.34.070).

**Overview: The Swauk Valley/Hidden Valley Area.**

The Hidden Valley area has been populated since the late 1860's. The area known as Hidden valley ranch was first permanently settled by James Evans in 1868. Since then the land in the Swauk Valley (also known as Hidden Valley) has stayed predominantly in large lot configurations, even the development that has occurred has included conservation easements and large open space reservations or developments that utilize cluster or MPR zoning to preserve watershed and open space. The inclusion of the proposed land into open space and Timber land will continue this pattern of land use. The preclusion of building and intensive development associated with the Open Space Act serves as a buffer to further development and any possible future degradation of what has been a special part of Kittitas County for over 130 years.

The CoeHORTS LLC property is located on a ridge protruding into the Swauk Creek Valley in Section 32, Township 20, Range 17. It is lightly forested, and contains the remnants of Hidden Valley Guest Ranch in the form of 6 unused guest ranch facilities 2 residences, a garage, a horse barn and a hay barn. The buildings other than the residences and barns are no longer used, most of the utilities have been disconnected and water only serves one of the buildings, a 2 story cinder block building. The residence of Bruce and Kim Coe on the smaller 3.7 acre parcel (parcel # 435635) in the middle of the larger 35.46 acre parcel (parcel # 445635).

In the past the land is open to the public by invitation (or reservation when the guest ranch was in operation), and will as in the past be open specifically to educational tours (CWU, Audibon, Geology and Natural history classes from an accredited institution). No unguided or unrestricted public recreation activity is contemplated at this time.

**Zoning Code compliance**

The land is currently zoned AG-3 KCC 17.28.010 states that the purpose and intent of land in the AG-3 zone is "... to provide for an area where various agricultural activities and low density residential developments co-exist compatibly. A-3 zones are predominately agricultural-oriented lands and it is not the intent of this section to impose further restrictions on continued agricultural activities therein.

A quick look at the accompanying maps shows the incursion of 3+ acre lot developments to the west of the Swauk Valley/Hidden Valley area over the last few years encroaching on the larger lots still existing in the Hidden Valley Area. The inclusion of the proposed parcels into the Open Space Taxation program will serve as a buffer between the more intensive development in the Swauk Prairie and the more sensitive areas in the Swauk Valley/Hidden Valley watershed. A planned unit cluster development to the north reinforces the concepts of providing open space and habitat maintenance in

Public Recreation will be limited to bona fide educational activities as a part of a class offered by an accredited institution, and group based (bird watching clubs etc) activities that are:

Not in violation of the terms and conditions of the Conservation Agreement filed with the Kittitas County Auditors Office executed by Hidden Valley Ranch and the Cascade Land Conservancy.

Properly insured and able to indemnify the landowners from any potential litigation.

Not in violation of the CCR's of the Swauk Pines Homeowners' Association.

All public access will be guided and will be by appointment only, certain parcels may be closed temporarily because of creek levels, habitat restoration or other preservation activities.

**Enhance value to public of abutting or neighboring parks, forests, wildlife preserves, nature reservations or sanctuaries or other open space?**

As stated previously the rest of the Swauk Basin is either on an open space overlay as part of a MPR application or in conservation easements or open space designations. The inclusion of the proposed parcels will solidify the current land use regimes and provide the last "missing link" to an area that will be continuously protected from US Highway 97 to the Yakima River.

**Preserve historic areas?**

There are no currently listed archeological sites in the parcels, nor are there any historic areas though it could be said that the preservation of the land in the Swauk Creek/Hidden Valley area will maintain a land use regime that has been historically consistent for the past 130 years.

**Preserve visual quality along highway, road, and street corridors or scenic vistas?**

There are no specific view sheds from which Hidden Valley can be viewed other than points along Hidden Valley Road, the county road that leads to the parcels under consideration for inclusion. Hidden Valley Road dead ends at Hidden Valley Ranch, in the past the road has been used to track cougars with radio collars, and for hunters to scout for wildlife, though they are not allowed to hunt on the parcels under consideration for inclusion.

**Retain in natural state tracts of one (1) or more acres in urban areas and open to public use as reasonable required by granting authority?**

None of the parcels under consideration for inclusion are in urban areas

**Farm and Agricultural land as defined in RCW 84.34.020(8)**

The "bottom land" or arable land in the parcels is either protected by a conservation easement executed between Hidden Valley Ranch and the Cascade Land Conservancy, or is now under consideration for inclusion in Open Space/Timber Lands. It has traditionally been used as grazing/hay production, and the agricultural land in Parcel 17787 is currently leased for irrigated pasture and hay production.

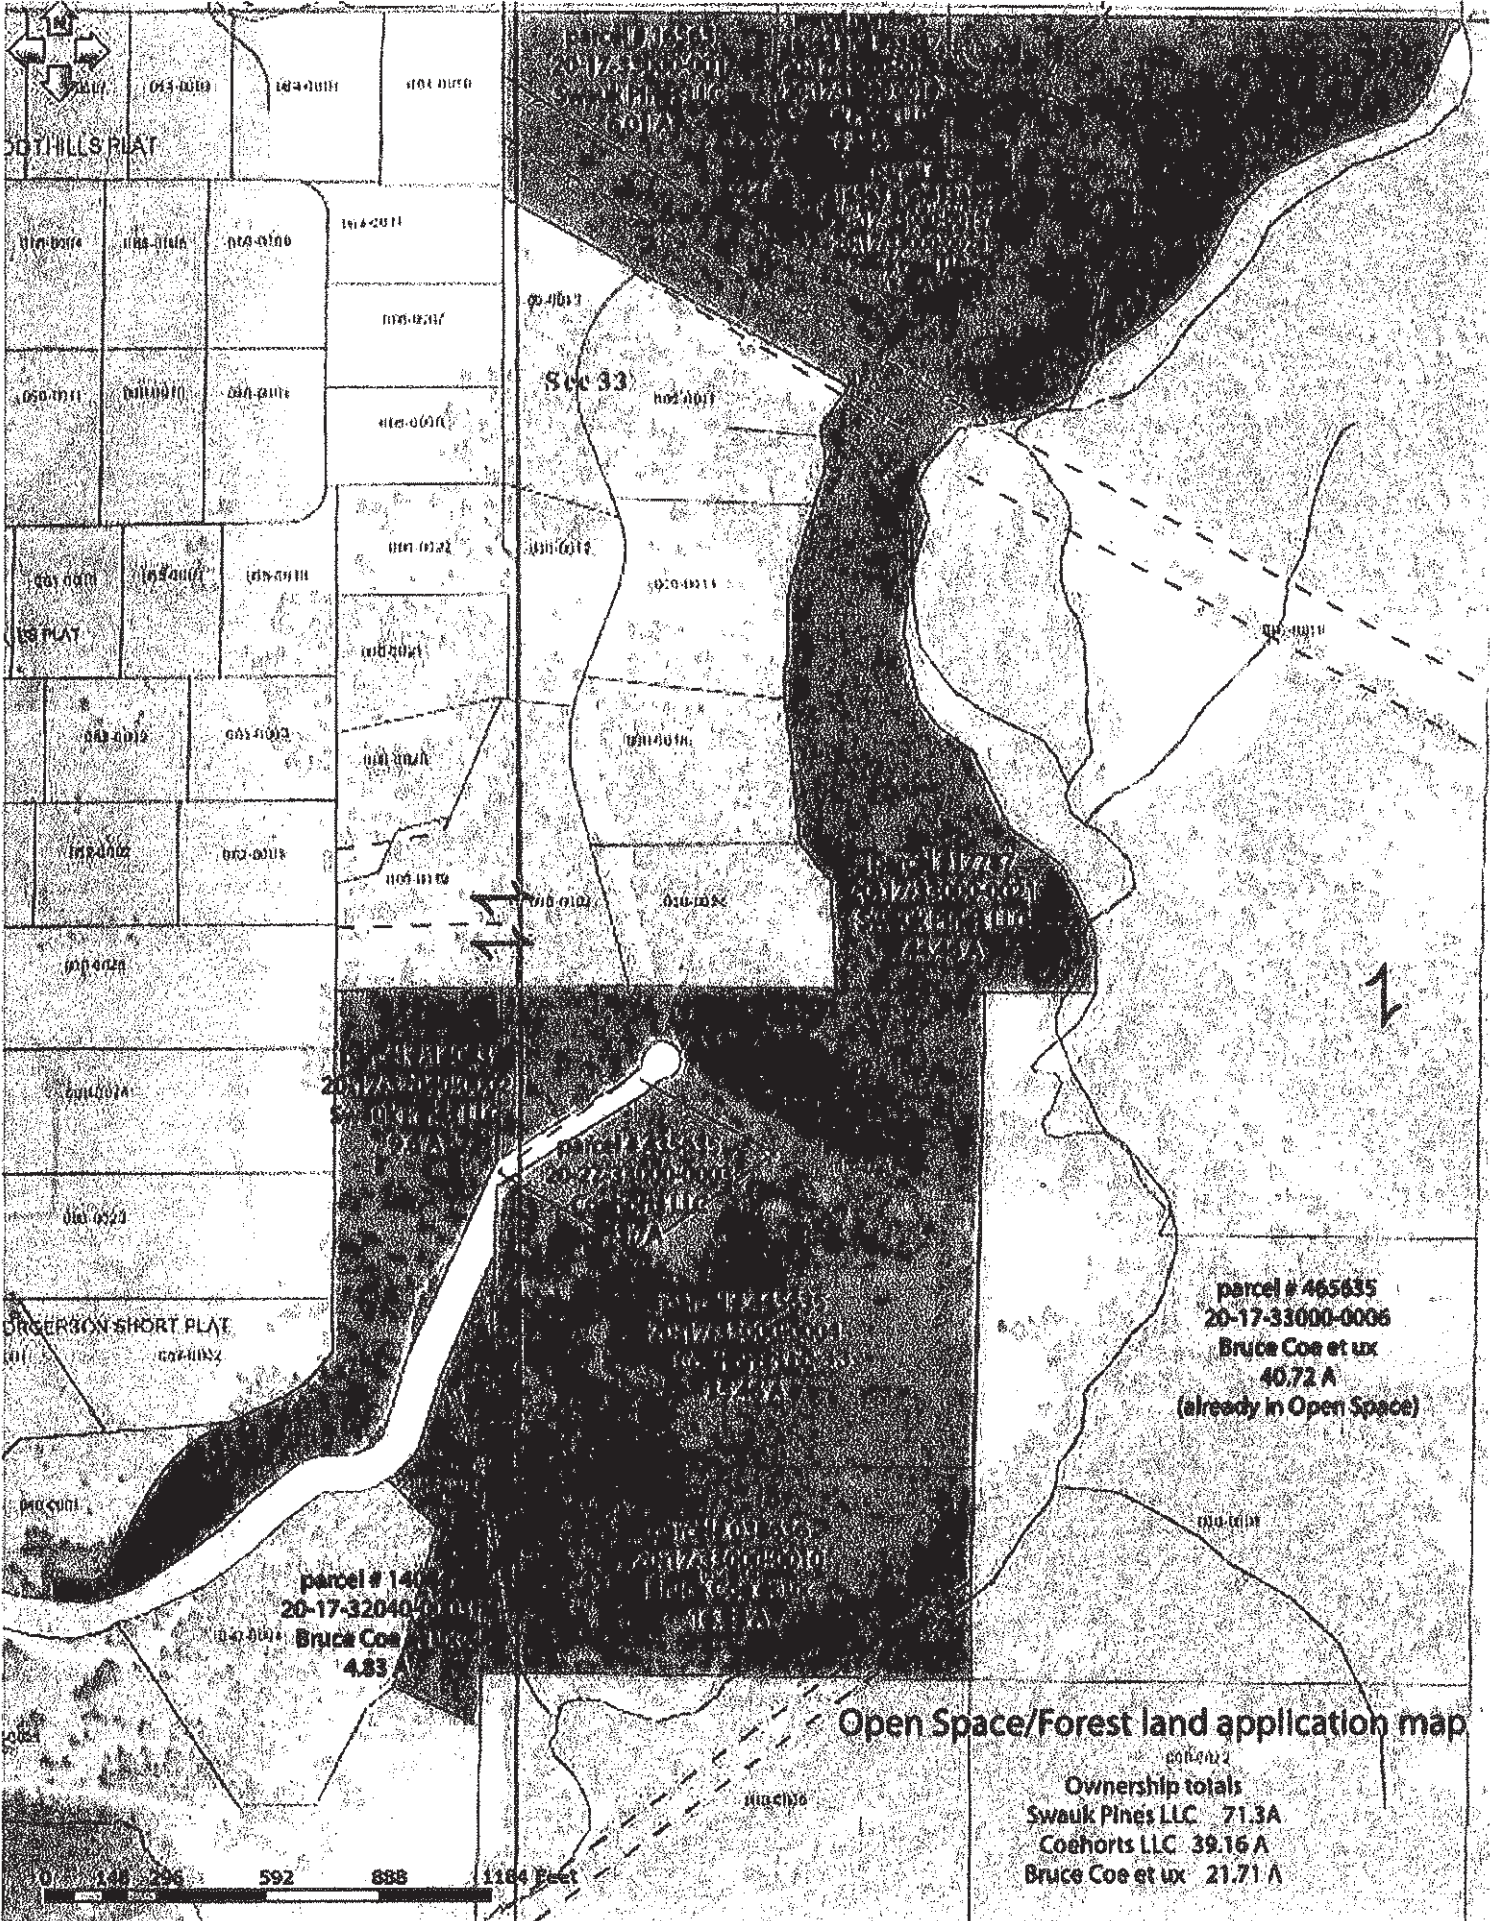

### **Noxious Weeds**

The Land in parcels under consideration for inclusion that has either been disturbed or is under agricultural uses is regularly treated for noxious weeds, and the Noxious Weed Board has received no complaints against the owners of the properties.

### **Timber Management Plan for the Parcels under consideration:**

A Timber Management Plan is currently being developed with the assistance of Phil Hess. Mr. Hess has done much work through the years in the Swauk Valley/Hidden Valley area either with Boise Cascade or the actual landowners in the Hidden Valley area. We expect the plan to be finished early in 2011.
